Verona, Nov. 9. N. S.

THE French who are in Garison at Mantua lately sent a Detachment towards Ponte di Lagos Scuro, to surprise some Artillery which the Imperialists had there; but found the Troops that had been left to guard it so well disposed to receive them, that they did not think fit to pursue their Design. The Prince of Hesse-Cassel is gone to Milan; and it is said, Prince Eugene is shortly expected there. The Duke of Savoy has caused Cazal to be invested, and is making Preparations to besiege it in Form; and Prince Eugene is likewise preparing to lay Siege to Valenza; but the very bad Weather we have at present obliges them to defer the Execution of those Designs to a more proper Season.

Cologne, Nov. 27. General Lottum is come to Aix la Chapelle with 5 Battalions of the King of Prussia's Forces, which are to remain in Garison there this Winter: The rest of his Prussian Majesty's Troops that served in Flanders are arrived upon the Frontiers of this Electorate, being most of them to quarter in these Parts. They have already begun to raise Recruits in our Neighbourhood for the Service of the Confederates. Letters from the Upper Rhine give an Account, That the French Army on that side being retired within their Lines, and their Troops having begun to march into Winter Quarters, the Imperial Forces under the Command of General Thungen had repassed the Rhine, the Enemy, tho' much superior in Number, not attempting to give them any Disturbance, and were marching to the Quarters assigned them, which are disposed in such manner, that a sufficient Body of them may be drawn together in a very short time, to prevent any Attempt the Enemy might make during the Winter.

His Royal Highness Prince George of Denmark, Lord High Admiral of England, &c. is pleased to direct, That all such Men belonging to Her Majesty's Ship the Kingstone, Captain Edward Chant Commander, which were removed from the Dragon to serve in the said Ship, and are in and about Town, do forthwith repair on board her at Chatham, otherwise they will be taken up and prosecuted as Deserters from Her Majesty's Service; the said Seamen being to be paid their Wages before the Kingstone sails from the Nore.

These are to give Notice, That a Correspondence by Letters will be established between England and Ostend, as formerly; and that on Friday next, being the 29th Instant, and afterwards every Monday and Friday, Letters will be taken in at the General Post Office in London, in order to be sent to such Parts of the Spanish Netherlands as have acknowledged King Charles the Third.

The Master, Wardens and Assistants, of Trinity-House of Deptford-Strond give Notice to all Masters of Ships and Vessels Trading to and from Newcastle, That the Sea had almost wash'd away the lower Light at Lowstoff, which obliged them to pull it quite down, the said Light-House having been (by the growing up of that Chanel) of little or no Use for several Years past to Navigation.
